KORU HOUR NEWS

The KoruHour evening domestic food and beverage service now runs from 4:30pm until 7pm and covers all domestic jet services between Auckland, Wellington, Christchurch, Dunedin and Queenstown. It will also extend to the later Auckland to Dunedin flight that departs at 7:10pm. The KoruHour breakfast service still runs from our first flight through to 9am.

We're also pleased to announce some new additions to the evening offer, like

ABE's Bagel Bites with Kato Sundried Tomato or Natural Hummus along with delicious New Zealand Kapiti Brie and Cheddar cheeses and Steinlager Pure beer.

KoruHour will no longer run on public holidays, but our delicious range of snacks and fresh Robert Harris coffee will still be available on these days and on weekends.

make-a-wish generosity

» Make-A-Wish is a non-profit organisation that relies solely on corporate and private contributions to help grant the wishes of children and young people who are facing the challenges of a life-threatening illness.

Air New Zealand is a principal sponsor of Make-A-Wish and has provided travel benefits for foundation staff as wish recipients. Earlier this year Air New Zealand ran a special on-board fundraising campaign to help grant the wishes of three Make-A-Wish kids and, thanks to the efforts of our domestic cabin crew and our generous passengers, we raised more than \$21,000.

The recipients were Liam from Wellington, Ryan (pictured) from Auckland and Hannah from Christchurch and, thanks to the huge amount generously donated by passengers, we will be able to grant an additional three wishes in the near future.
